Please

Description of Item

All price tags must have your seller number in the top left corner, the price in the middle and a brief description which aids us if the tag becomes separated from its item during the sale.

Mark on the price tag if the item is part of a set (1 of 2, 2 of 2, etc..)

Attach price tags to the item so that they cannot fall off or be switched, get creative in a way that will not ruin the clothing.

Put the price tag on the clothing.

Price your items to sell and in full dollars please.
